

Oh, **in** the ground there is a the deepest hole

And **in** that hole there is a the tallest tree

And **on** that tree there is a the longest branch

And **on** that branch there is a the prettiest nest

And **in** that nest there is an the whitest egg

And **on** that egg there is a the bluest bird

And **on** that bird there is a the yellowest beak

And **in** that beak there is a the wiggliest worm

Worm **in** the beak

beak **on** the bird

bird **on** the egg

egg **in** the nest

nest **on** the branch

branch **on** the tree

tree **in** the hole

hole **in** the ground

And the green grass grows all around, all around.

And the green grass grows all around.
